Shower Enclosure
collections

Showering è l'espressione di un nuovo modo di concepire lo spazio doccia, pensato come regno dell'eleganza, della trasparenza e della modularità. È un sistema componibile che presenta diversi modelli di chiusura, con infinite varianti e misure, da scegliere e accostare secondo i dettami della personalità.
Non adattare i tuoi gusti all'ambiente, crea il tuo ambiente secondo le tue inclinazioni.

Showering, un espace douche d'inspiration nouvelle, conçu comme le règne de l'élégance, de la transparence et de la modularité.
Ce système modulaire propose plusieurs modèles de parois, ainsi qu'une variété infinie de dimensions à choisir et à assembler à son propre gré.
N'adaptez pas vos goûts à votre environnement, créez votre environnement selon vos propres goûts.

Showering is a new way of conceiving the shower space, where elegance, transparency and modularity reign supreme.
It is a modular system that offers a wide choice of enclosures, shower trays and panels. Models and sizes can be matched as desired in order to have a personalized shower space.

moov

Pensata per spazi doccia ampi, Moov scorre su cuscinetti a sfera integrati sul binario superiore che garantiscono fluidità e silenziosità nel movimento. Il meccanismo Soft-close ammortizza la porta in fase di apertura e chiusura.

Conçue pour des espaces douche de grandes dimensions, Moov coulisse sur des roulements à billes intégrés dans le rail supérieur, spécialement développés pour garantir un mouvement fluide et silencieux. Le mécanisme Soft-close amortit la porte en ouverture et fermeture, en contribuant à en augmenter le confort.

Conceived for large shower areas, Moov runs on ball bearings integrated in the top rail to guarantee smooth quiet travel.
Soft-Close mechanism cushions both door opening and closing.

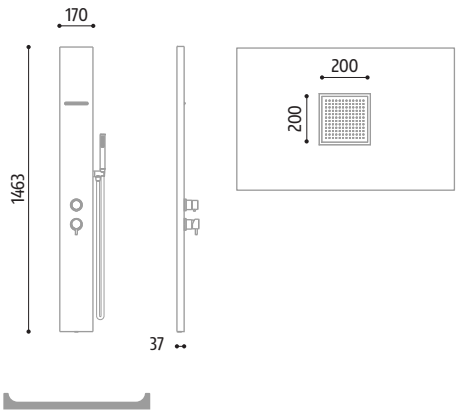
SLINTA BOX



slinta box

Slinta Box è composto dalla chiusura doccia Slinta e da una colonna doccia ed un tettuccio che presentano la stessa finitura scelta per i profili della chiusura (finitura nero spazzolato non disponibile). Slinta Box è disponibile nelle versioni nicchia, angolo ed angolo doppia porta, per chiusure all'interno del range: Larghezza 600÷1400 mm - Profondità 700÷1000 mm.
Per ordinare Slinta Box, ordinare la chiusura scelta unitamente al kit per chiusura sotto riportato.

Slinta Box se compose d'une paroi Slinta unie à une colonne de douche équipée et une coiffe avec douche de tête qui présentent la meme finition brossée des profilés paroi (finition noir brossé indisponibile).
Disponible dans les versions niche, angle, angle deux portes, et pour toute paroi Slinta dans la fourchette; largeur 600÷1400 mm - Profondeur7 00÷1000mm.
Pour commander Slinta Box, commander la version de paroi choisie et le kit pour paroi reporté ci-dessous.

Slinta Box consists of a Slinta shower enclosure, an equipped shower panel and a roof with showerhead in the same brushed finish of the enclosure profiles (brushed black finish not available).
Available for niche, corner and corner entry versions, for all Slinta enclosures within the range: width 600÷1400 mm – depth 700÷1000mm.
To order a Slinta Box, please order the selected shower enclosure version and the kit mentioned below.

soho

Collezione dall'estetica minimale e contemporanea,
Soho propone un'ampia gamma di configurazioni e di aperture:
scorrevole, pivot, saloon, battente e walk-in.

La caractéristique la plus intéressante de Soho est la très vaste gamme d'ouvertures proposées - coulissante, battante, pivot, saloon et walk-in - associée à une esthétique résolument contemporaine.

New outstanding range with minimal and contemporary design, Soho features a wide choice of door openings: sliding, pivoting, saloon, swinging and walk-in.

hardlite

Composto da una miscela di resine acriliche e sostanze minerali, adatto ad un taglio sartoriale su misura, l'HardLite è una solid-surface che presenta una superficie non porosa ed omogenea, opaca, setosa al tatto, durevole nel tempo, facile da pulire, facile da riparare.

Composé d'un mélange de résines acryliques et de substances minérales, adapté à une coupe sur mesure, l'HardLite est une matériel doté d'une surface solide, non poreuse, homogène, mate, soyeuse au toucher, résistante, facile à nettoyer et facile à réparer.

Consisting of a mixture of acrylic resins and mineral substances, solid surface HardLite is non-porous, seamless, matt, silky to the touch, longlasting, easy to clean and easy to repair: ideal for a bespoke look.

set suite

set_suite

Realizzati su misura in HardLite i piatti Set e Suite uniscono un design elegante ad una superficie setosa. Il piatto Set, ideale per installazione a filo pavimento, prevede una guaina impermeabilizzante perimetrale atta a garantire massima tenuta. Il piatto Suite prevede un'installazione in appoggio sopra pavimento finito, facilitata da piedini regolabili per una perfetta messa a livello.

Réalisés sur mesure en HardLite, les receveurs Set et Suite unissent un design élégant à une surface soyeuse. Idéal pour les installations au ras du sol, le receveur Set est doté sur le périmètre d'une enveloppe imperméabilisante en mesure de garantir une parfaite étanchéité. Conçu pour être posé sur un sol fini, l'installation du receveur Suite est facilitée par des pieds réglables pour une mise à niveau parfaite.

Custom-made HardLite Set and Suite shower trays combine an elegant design with a silky surface. Set shower tray is ideal for built-in installation and includes a waterproof membrane around the perimeter to ensure maximum watertightness. Suite shower tray is designed for floor-standing installation, having adjustable feet to level it perfectly.

plylite

Materiale composito multistrato ad elevata densità con finitura superficiale vinilica poliuretanica, PlyLite garantisce un'elevata resistenza strutturale ed inalterabilità nel tempo, unite ad una grande facilità di pulizia. La texture superficiale rende il piatto antiscivolo ed è disponibile in tre varianti colore.

Matériau composite multicouches à densité élevée pourvu d'une finition de surface vinylique polyuréthanique, PlyLite offre une importante résistance structurale ainsi qu'une durabilité élevée tout en assurant une grande facilité d'entretien. Le receveur est revêtu d'une texture antidérapante disponible en trois couleurs différentes.

Being made of high density plywood with polyurethane vinyl finish, PlyLite guarantees high strength and long-lasting good looks while being very easy to clean. The surface texture makes the tray non-slip. Available in three alternative colours.

rug

Il piatto Rug aggiunge alle già note caratteristiche del PlyLite un piano calpestabile soffice, che rende più confortevole la permanenza in doccia.
Rug presenta un bordo contenitivo rigido, sede ideale per l'installazione della chiusura doccia, ed un copripiletta ispezionabile nella medesima finitura. Al piatto Rug è possibile abbinare i pannelli di rivestimento murale Quasar Wall, vedi pag. 348-353.

En plus des caractéristiques habituelles du PlyLite, le receveur Rug est doté d'une surface souple qui rend encore plus agréable le moment de la douche. Rug propose un bord rigide, qui constitue un siège idéal pour installer la paroi de douche, ainsi qu'une bonde dotée d'un couvercle démontable de la même finition que le receveur. Le receveur Rug peut être assorti aux panneaux de revêtement muraux Quasar Wall, voir pages 348-353.

Rug shower tray adds another feature to those already mentioned of PlyLite: a surface that is soft to stand on, so that taking a shower becomes even more comfortable. Rug has rigid edges that can accommodate shower enclosures; waste cover in the same finish can be removed for inspection. Quasar Wall panels can be fitted with Rug shower tray, see pages 348-353.

quasar wall

I pannelli di rivestimento murale Quasar Wall consentono di creare una continuità tra piatto e pareti, risolvendo efficacemente ogni necessità di sostituzione della vasca con un'area doccia. Estremamente maneggevoli ed adattabili ad ogni situazione preesistente, i pannelli Quasar Wall si installano rapidamente senza richiedere competenze specifiche.
Sono disponibili in due versioni, orizzontale o verticale, per venire incontro ad ogni esigenza e soddisfare anche piccoli budget.

Les panneaux de revêtement muraux Quasar Wall permettent de créer une continuité entre le receveur et les murs ce qui aide à résoudre aisément toute nécessité de remplacement d'une baignoire par un espace douche. Très maniables et s'adaptant à toute situation, les panneaux Quasar Wall s'installent rapidement sans qu'aucune compétence particulière ne soit nécessaire. Ils sont disponibles en deux versions, horizontale ou verticale, pour répondre à tout type d'exigence et satisfaire aussi les petits budgets.

When replacing a bathtub with a shower area, installing Quasar Wall panels ensures there is no gap between tray and walls. Quasar Wall panels are quick to install since they need no specific skills, being extremely easy to handle and adaptable to all existing situations.
Available in two versions - horizontal or vertical - to cater to all needs as well as small budgets.

razor

Il piatto Razor unisce le caratteristiche del MineraLite ad una finitura superficiale effetto pietra naturale, in sei diverse colorazioni. È adattabile in fase di installazione mediante rifilatura, ed è personalizzabile con bordi e/o scantonature. Viene fornito di serie con copripiletta in finitura. È possibile abbinare i pannelli di rivestimento murali Razor Wall, vedi pag. 372-375.

Le receveur Razor associe les caractéristiques du MineraLite à une finition à effet pierre naturelle proposée dans six couleurs différentes. Il peut être coupé en phase d'installation et être personnalisé avec des bords et/ou des biseautages. Il est fourni de série avec un couvercle de bonde en finition. Il peut également être fourni avec des panneaux de revêtement muraux Razor Wall assortis, voir pages 372-375.

Razor shower tray combines the features of MineraLite with a natural stone effect surface finish, in six different colours. It can be trimmed to be adapted to installation requirements and can be customised with edges or special cuts corners. This shower tray is equipped with its waste cover in same finish as a standard. It can be matched with Razor Wall panels, see pages 372-375.

STANDARD

I piatti Razor nelle dimensioni standard a listino sono forniti con la finitura sui quattro lati. Essi possono essere rifilati in utenza per meglio adattarsi al contesto installativo. In questo caso si precisa che la zona rifilata perde la finitura e si consiglia pertanto di posizionare i lati rifilati contro parete.
Dans les dimensions standard prévues dans le catalogue, les receveurs Razor sont fournis avec une finition sur les quatre côtés. Les côtés peuvent être coupés sur place pour les adapter au lieu d'installation. La partie coupée perdant alors sa finition, il est conseillé de la positionner contre le mur.
Standard size Razor shower trays in the price list are supplied with all four sides finished. Shower trays can be trimmed on site to adapt to installation area. In this case the trimmed area loses its finish and should therefore be placed against the wall.

razor wall

I pannelli di rivestimento murale Razor Wall consentono di creare continuità tra piatto Razor e parete, risolvendo efficacemente ogni necessità di sostituzione della vasca con un'area doccia. Sono rifilabili in fase di installazione per garantire un risultato estetico e funzionale senza compromessi.

Les panneaux de revêtement muraux Razor Wall permettent de créer une continuité entre le receveur Razor et les murs ce qui aide à résoudre aisément toute nécessité de remplacement d'une baignoire par un espace douche. Ils peuvent être coupés en phase d'installation pour garantir un meilleur résultat esthétique et fonctionnel.

When replacing a bathtub with a shower area, installing Razor Wall panels ensures there is no gap between Razor shower tray and walls.
The panels may be trimmed at the time of installation for an outstanding aesthetic and functional result.

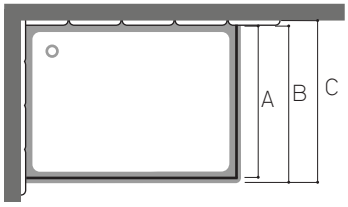
vademecum

guide_guide

PRESA MISURE_RELEVÉ DES MESURES_MEASURE-TAKING

misura corretta_dimensions correctes_right dimensions

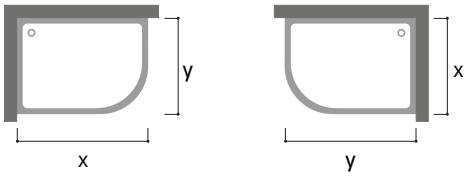


A - Misura reale ingombro chiusura doccia_Dimensions réelles de la paroi de douche_Shower enclosure real size

B - Misura esterna piatto doccia con rivestimento_Dimensions extérieures du receveur de douche avec revêtement_ Outer size of the shower tray with tiling

C - Misura nominale piatto doccia
Dimensions nominales du receveur de douche_Nominal size of the shower tray

angolare asimmetrico_d'angle asymétrique_ asymmetric curved corner



sinistra_gauche_left

destra_droite_right

Una corretta rilevazione delle misure è fondamentale per ottenere il migliore risultato estetico e funzionale.
· si raccomanda di prendere le misure dopo aver posato il piatto doccia ed il rivestimento a parete
· la misura da rilevare va dal rivestimento a parete fino all'esterno piatto
· Nel caso di chiusura a nicchia, si raccomanda di rilevare le misure a 20 cm, 100 cm e a 180 cm circa di altezza dal piatto doccia.
· verificare che il piatto doccia sia in bolla
· Controllare sempre il raggio di curvatura per i piatti semicircolari
· verificare la messa a piombo delle pareti, in casi rilevanti comunicare il fuori piombo
· verificare che l'angolo tra le pareti sia di 90°
· verificare la presenza di impedimenti al montaggio come torelli, piastrelle molto irregolari ecc.
· nel caso di piatti doccia a filo pavimento accertarsi che il piatto sia complanare al pavimento lungo tutti i lati e comunicare se è richiesta l'istallazione in sormonto alla giunzione tra piatto e pavimento (non tutti i modelli si prestano a questo tipo di installazione).
Compilare il Modulo di Rilievo per trasmettere l'ordine o richiedere la fattibilità della soluzione richiesta.
I Centri assistenza autorizzati Glass effettuano i rilievi misure a pagamento compilando e riconsegnando al rivenditore il modulo completo dei dati necessari per trasmettere l'ordine.

Un relevé correct des mesures est fondamental pour obtenir le meilleur résultat esthétique et fonctionnel.
· il est recommandé de prendre les mesures après avoir posé le receveur et le revêtement mural
· la mesure à relever va du revêtement mural jusqu'à l'extérieur du receveur
· En cas de paroi de douche en niche, il est recommandé d'effectuer des mesures à 20 cm, 100 cm et 180 cm de hauteur environ à partir du receveur de douche.
• s'assurer que le receveur soit à niveau
· Toujours vérifier le rayon du côté courbé pour les receveurs quart de ronds.
· s'assurer que les murs soient d'aplomb, communiquer aucas si les murs ne sont pas d'équerre
· s'assurer que l'angle entre les murs soit de 90°
· vérifier la présence d'empêchements au montage comme les tores, les carreaux très irréguliers etc.
· en cas de receveur au ras du sol, s'assurer que le receveur soit coplanaire au sol le long de tous les côtés et communiquer s'il faut que l'installation chevauche la jonction entre le receveur et le sol (tous les modèles ne se prêtent pas à ce type d'installation).
Remplir le Formulaire de Relevé pour transmettre la commande ou demander la faisabilité de la solution demandée.
Les Centres d'assistance autorisés Glass effectuent les relevés des mesures avec facturation en remplissant et en remettant au revendeur le formulaire contenant toutes les données nécessaires pour transmettre la commande.

Taking measurements properly is crucial to achieving the best aesthetic and functional results.
· it is recommended to take the measurements after having laid the shower tray and the wall lining
· measurement must be taken starting from the wall lining to the outside of the shower tray
· check that the shower tray is levelled
· check that the walls are plumbed; in significant cases, report the plumb line deviation
· check that the angle between the walls is 90°
· check whether there are any assembly obstructions such as bullnose tiles, very irregular tiles etc.
· in the event of flush-to-floor shower trays, make sure that the shower tray is flush to the floor on all sides; report whether the shower enclosure needs to be installed overlapping the joint between the tray and the floor (not all models are suitable for this type of installation).
Fill in the Measure-Taking Form to send the order or request the feasibility of the required solution.
Authorised Glass after-sales centres can take the measurements for a fee, completing and returning the form to the dealer with all the data required to send the order.

INSTALLAZIONE_INSTALLATION_ INSTALLATION

Il fissaggio dei montanti a muro è di norma la prima operazione da effettuare nel montaggio del box doccia; è bene accertarsi di aver correttamente interpretato le quote di installazione presenti sulle istruzioni, in caso di dubbi contattare il Servizio Clienti Glass.
I tasselli forniti con il prodotto sono adatti solo per alcuni tipi di pareti, cioè con una consistenza tale da permettere l'espansione del tassello. Per il fissaggio su pareti di scarsa consistenza come ad esempio cartongesso e polistirolo o nel caso di presenza di porte scrigno non usare i tasselli forniti ma munirsi munendosi di quelli appositi a seconda della tipologia della parete.
A montaggio completato è necessario effettuare la siliconatura nei punti previsti sul manuale di montaggio. Utilizzare siliconi di buona qualità, accertandosi che questi non danneggino la superficie di applicazione.

La fixation des montants au mur est en général la première opération à effectuer lors du montage de la cabine de douche ; s'assurer d'avoir correctement interprété les cotes d'installation présentes sur les instructions, en cas de doutes contacter le Service Clients Glass.
Les chevilles fournies avec le produit ne sont adaptées que pour certains types de murs, c'est-à-dire ayant une consistance telle à permettre l'expansion de la cheville. Pour la fixation sur des murs ayant une consistance insuffisante, comme par exemple le placoplâtre et le polystyrène, ou en cas de présence de portes coffrets, ne pas utiliser les chevilles fournies mais se munir de chevilles appropriées au type de mur.
Le montage terminé, il est nécessaire de siliconer les points prévus sur le manuel de montage. Utiliser des silicones de bonne qualité, en s'assurant que ceux-ci n'endommagent pas la surface d'application.

Installing wall profiles is usually the first thing to do when mounting the shower enclosures; make sure you are fully aware of the installation parameters featured in the instructions, otherwise please contact Glass Customer Service.
Rawlplugs supplied with the product are only suitable for certain types of walls, i.e. with a consistency that allows for the expansion of the plug. When mounting on walls of poor consistency such as plasterboard and polystyrene, or when there are pocket doors, do not use the plugs supplied but instead use the ones which are appropriate to the type of wall.
Once installation is complete, apply silicone in all points required according to the installation manual. Use good quality silicone, making sure that it does not damage the application surface.

MANUTENZIONE_ENTRETIEN_MAINTENANCE

Un montaggio qualificato e una corretta manutenzione sono requisiti fondamentali per fruire al meglio della qualità Glass 1989.
Particolarmente importante è limitare l'applicazione del silicone alle zone indicate: ogni cabina è infatti progettata per ridurne al minimo l'utilizzo.
Sono consigliati dei controlli periodici delle cabine, in quanto le sollecitazioni dovute all'utilizzo e al peso possono causare dei cambiamenti di funzione.
Diversamente, se le stesse non vengono utilizzate per un tempo prolungato, è raccomandabile l'utilizzo di un liquido lubrificante sulle componenti meccaniche.
Attenzione speciale è da riservare ai materiali di consumo: nello specifico si consiglia di sostituire le guarnizioni ogni 2 - 3 anni, a seconda della frequenza di utilizzo.

Un montage par du personnel qualifié et un entretien correct sont des éléments nécessaires pour profiter au mieux de la qualité Glass 1989. Il est particulièrement important de limiter l'application de silicone dans les zones indiquées:
en effet, chaque cabine a été conçue pour réduire au minimum l'utilisation de ce produit.
Il est conseillé de contrôler périodiquement les parois, car les sollicitations importantes dues à l'utilisation et au poids
peuvent altérer le fonctionnement. En revanche, en cas de non-utilisation des parois pendant une période prolongée, il est recommandé d'apposer un liquide lubrifiant sur les composants mécaniques.
Il est important de prêter une attention particulière aux matériaux sujets à l'usure : il est particulièrement conseillé
de remplacer les joints tous les 2 - 3 ans, en fonction de la fréquence d'utilisation.

Proper installation and correct maintenance are essential for enjoying Glass 1989 quality to the full.
It is particularly important to limit the application of silicone to the indicated areas: every shower enclosure is designed to reduce its use to a minimum.
Periodic controls of the shower enclosures are recommended since stress due to use and weight could cause changes in function. If they are not used for any length of time, it is advisable to apply a liquid lubricant to the mechanical parts.
Special attention should be paid to wearing off materials: more specifically it is recommended to change the gaskets once every 2 - 3 years, depending on the frequency of use.

PULIZIA_NETTOYAGE_CLEANING

Asciugare il prodotto dopo ogni utilizzo previene la formazione di calcare sui cristalli.
Nel caso di forti depositi calcarei si consiglia di utilizzare succo di limone.
Attenzione: Non utilizzare succo di limone se il cristallo è munito di trattamento anticalcare Shining Glass®.
Per la pulizia ordinaria utilizzare panni morbidi e detergenti liquidi neutri e non abrasivi..
Attenzione: Non usare panni con fibre sintetiche, spugne abrasive, tamponi con fili metallici, detersivi solidi o liquidi contenenti abrasivi, alcool, acidi di uso domestico, acetone o altri solventi perché intaccano le superfici.

Essuyer le produit après chaque utilisation prévient la formation de calcaire sur les vitres.
En cas d'importants dépôts calcaires, il est conseillé d'utiliser du jus de citron.
ATTENTION: Ne pas utiliser de jus de citron si le verre est doté du Traitement Anti-calcaire Shining Glass®.
En cas de dépôt calcaire important, l'utilisation de jus de citron est recommandée.
ATTENTION: Ne pas utiliser de chiffons à base de fibres synthétiques, d'éponges abrasives, de tampons inox, de détergents solides et liquides contenant des produits abrasifs, d'alcool, d'acides à usage domestique, d'acétone ou tout autre solvant pouvant endommager la surface.

Dry off product with a soft cloth after usage to prevent limescale accumulation.
Use lemon juice to clean limescale deposits.
CAUTION Do not use lemon juice on glass with Shining Glass® treatment.
Use soft cloths and non-abrasive mild liquid detergents for cleaning.
CAUTION: Do not use synthetic fibre cloths, scouring pads, metal pads, abrasive detergents whether liquid or solid, alcohol, acids for domestic use, acetone or other solvents, which would damage the surface.

PULIZIA E MANUTENZIONE - PIATTI DOCCIA
NETTOYAGE ET ENTRETÎEN - RECEVEURS DE DOUCHE
CLEANING AND MAINTENANCE

Ogni superficie, se viene correttamente e regolarmente manutenuta, mantiene inalterate le sue caratteristiche nel tempo.
Ecco i consigli per un corretto mantenimento dei piatti Glass:
Toute surface, entretenue correctement et régulièrement, maintient ses caractéristiques inaltérées dans le temps.
Voici les conseils pour un entretien correct des receveurs Glass:
With proper, regular care all the surfaces will retain their original features over the years. Here are a few tips on how to care for Glass shower trays:

La pulizia ordinaria può essere effettuata semplicemente con acqua e detergenti neutri, strofinando con un panno morbido. La finitura vinilica poliuretanica del PlyLite garantisce un' ottima resistenza all'abrasione e al graffio, infatti è possibile trattare lo sporco ostinato con l'impiego di spugne leggermente abrasive (tipo quelle per le pentole anti aderenti) o spazzole dalle setole non troppo dure, in combinazione con comuni detergenti per il bagno presenti sul mercato, avendo cura di leggerne attentamente le modalità d'impiego.

Le nettoyage ordinaire peut être effectué simplement avec de l'eau et un détergent neutre, en frottant avec un chiffon doux. La finition vinylique polyuréthanique du PlyLite garantit une excellente résistance aux abrasions et aux rayures. Il est en effet possible de nettoyer la saleté incrustée avec des éponges légèrement abrasives (celles utilisées pour nettoyer les casseroles anti-adhérentes) ou des brosses dont les poils ne sont pas trop durs, en combinaison avec des détergents habituels pour salles de bain vendus dans le commerce, en ayant soin d'en lire attentivement le mode d'emploi.

Simply rub with a soft cloth using water and mild detergent for routine cleaning. The vinyl polyurethane finish of PlyLite ensures excellent resistance to abrasion and scratches and stubborn dirt may be removed using lightly abrasive sponges (such as those for non-stick pans) or brushes with relatively soft bristles and common bathroom cleaners, taking care to read the manufacturer's instructions for use.

Per una vera pulizia, vi consigliamo l'uso di acqua calda (meglio se distillata data l'assenza di calcare) ed aceto al 20-30-40% a seconda delle necessità, per non avere forti odori prediligere l'utilizzo di aceto di mele. Si consiglia inoltre l'utilizzo di detergenti neutri non aggressivi alcalini o meglio se a base di sali quaternari di ammonio. Per la disinfezione esistono in commercio detergenti disinfettanti non aggressivi, quelli più comuni vanno bene se diluiti con acqua calda. È vietato il trattamento della superficie con alcool, acetone, solventi o similari. Si raccomanda in ogni caso, di non utilizzare prodotti particolarmente aggressivi come acidi, solventi che potrebbero danneggiare, talvolta irrimediabilmente, la superficie del piatto doccia.

Pour un véritable nettoyage, nous vous conseillons de l'eau chaude (préférablement distillée pour éviter la présence de calcaire) et du vinaigre à 20-30-40% selon la nécessité. Le vinaigre de pomme est conseillé pour éviter les odeurs désagréables. Il est d'autre part recommandé d'utiliser des détergents neutres non agressifs alcalins ou mieux encore à base de sels d'ammonium quartenaires. Pour la désinfection, il existe dans le commerce des détergents désinfectants non agressifs et même les plus communs doivent être dilués avec un peu d'eau chaude. Il est absolument interdit de traiter les surfaces avec de l'alcool, de l'acétone , des solvants ou tout produit semblable.

For thorough cleaning we recommend using hot water (better if distilled, i.e. without limestone) and 20-30-40% vinegar as needed; to avoid a strong odour, apple vinegar is recommended. Mild, non-aggressive alkaline detergents are also recommended or even better if based on quaternary ammonium salts. To disinfect the tray use non-aggressive disinfectant detergents, which can be found on the market, otherwise the more common disinfectants provided they are diluted with hot water. Do not treat the surface with alcohol, acetone, solvents or such.

La pulizia ordinaria può essere fatta attraverso la stesura di normali prodotti detergenti, come sgrassatori, pulitori per ceramiche e anticalcare avendo cura a non eccedere nelle quantità e nei tempi di esposizione. Si impiegano panni morbidi per le superfici lucide (Flat), mentre le superfici effetto pietra (Razor) o opache (CinqueTerre) sopportano l'impiego della spugna per lavare i piatti (leggermente abrasiva) usata delicatamente e non in maniera prolungata. Segni ostinati possono essere rimossi con l'utilizzo della gomma bianca per cancellare la matita. In casi eccezionali e straordinari (ad esempio per la rimozione di macchie di vernice o tinteggiatura) , possono essere utilizzate poche gocce di acetone imbevute su un panno morbido, avendo cura di risciacquare accuratamente dopo l'uso.

Le nettoyage ordinaire peut être effectué en utilisant des produits détergents normaux comme des produits dégraissants, des produits pour céramiques et des anticalcaires en ayant soin de ne pas exagérer dans la quantité et le temps de pose. Des chiffons doux doivent être utilisés pour les surfaces brillantes (Flat) alors que pour les surfaces effet pierre (Razor) ou mat (CinqueTerre) on peut se servir d'éponges légèrement abrasives, de manière délicate et non prolongée. Les taches résistantes peuvent être éliminées avec les gommes blanches servant pour effacer le crayon à papier. Dans les cas exceptionnels et extraordinaires (par exemple l'élimination de taches de peinture ou de teinture), il est possible d'imbiber un chiffon doux de quelques gouttes d'acétone en ayant soin de bien rincer après l'usage.

Use normal cleaners, such as degreasers, ceramic cleaners and limescale removers for routine cleaning, taking care not to exceed the recommended quantities and dwell time. Use soft cloths for glossy surfaces (Flat). A washing-up sponge (gently abrasive) may be used on stone-effect surfaces (Razor) or matt surfaces (CinqueTerre) provided it is done with a delicate touch and not for very long. Stubborn marks may be removed using a white rubber (the type used for pencil marks). In exceptional circumstances (e.g. to remove splashes of paint), a few drops of acetone on a soft cloth may be used, taking care to rinse thoroughly after use.

HARDLITE

La pulizia ordinaria di questi piatti può essere effettuata con spugne morbide e detergenti in crema. Le manutenzioni straordinarie possono essere effettuate con carta abrasiva sottile o spugne abrasive (tipo scotch brite) avendo cura di inumidire la zona da trattare. Questi piatti sopportano l'impiego di alcool trasparente.

Le nettoyage ordinaire de ces receveurs peut être effectué avec une éponge douce et un détergent en crème. La maintenance extraordinaire peut être effectuée avec un papier abrasif fin ou une éponge abrasive (type scotch brite) en ayant soin d'humidifier précédemment la zone à traiter. Ces receveurs supportent l'utilisation d'alcool transparent.

Clean these trays using a soft sponge and cream detergent. Fine abrasive paper or abrasive sponges (such as Scotch Brite) may be used in exceptional cases, first taking care to wet the area to be treated. Transparent alcohol may be used on these shower trays.

ACRYL

La pulizia quotidiana va eseguita con panni morbidi inumiditi con detergenti blandi e assolutamente non abrasivi. Vanno evitati i detergenti che contengono alcool. Un'operazione straordinaria di manutenzione può consistere nel trattamento con pasta lucidante (polish da carrozziere) per riportare il piatto all'originaria lucentezza persa negli anni.

Le nettoyage quotidien doit être effectué avec un chiffon doux humecté et un détergent délicat absolument pas abrasif. Les détergents contenant de l'alcool doivent être évités. La maintenance extraordinaire peut être effectuée avec un produit polissant (polish de carrossier) pour redonner au receveur son brillant d'origine.

Use dampened soft cloths with mild, non-abrasive detergents for daily cleaning. Avoid using detergents that contain alcohol. Treat with polishing paste (car bodywork polish) to bring back the original shine, which may be lost over the years.

RESISTENZA AI PRODOTTI DI USO COMUNE
RÉSISTANCE AUX PRODUITS D'UTILISATION COMMUNE
RESISTANCE TO COMMONLY USED PRODUCTS

Tutti i piatti doccia Glass 1989 sono sottoposti a rigide prove di resistenza secondo la norma UNI EN 14527 della direttiva europea, superando brillantemente i tests previsti. La tabella riporta i risultati ottenuti su tutti i materiali utilizzati nella produzione di piatti doccia Glass.

Tous les receveurs de douche Glass 1989 ont été soumis à des tests sévères de résistance, conformément à la norme UNI EN 14527 de la directive européenne, qu'ils ont passé brillamment. Le tableau ci-dessous fourni les résultats obtenus sur tous les matériaux utilisés dans la fabrication des receveurs de douche Glass.

All Glass 1989 shower trays have passed the severe resistance tests in accordance with the standard UNI EN 14527 and relative European directive.
The table below gives the results obtained on all the materials used in the manufacture of Glass shower trays.

Consigli per l'installazione_Conseils d'installation_Tips for installation:

1. Pulire accuratamente l'intonaco e chiudere eventuali vuoti. Nel caso di installazione sopra un vecchio rivestimento, si raccomanda di levigarlo con appositi dischi diamantati al fine di creare il grip per i collanti di posa.
2. Aspirare le polveri superficiali.
3. Applicare sull'intonaco il primer (tipo ECO PRIM T). Nel caso di installazione sopra un vecchio rivestimento questo passaggio non sarà necessario.
4. Dopo almeno 5 ore:
   - Posare il nastro gommato (tipo MAPEBAND) lungo gli spigoli interni.
   - Stendere l'impermeabilizzante (tipo MAPELASTIC AQUADEFENSE).
5. Ad asciugatura avvenuta, incollare le lastre con apposito prodotto (tipo KERALASTIC T) utilizzando la tecnica della doppia spalmatura.
6. Raccordare gli spigoli interni e i pannelli al piatto con sigillante neutro antimuffa (tipo MAPESIL LM).

1. Nettoyer soigneusement l'enduit et boucher les éventuels trous. En cas d'installation sur un vieux revêtement, il est recommandé de le poncer avec un disque diamanté afin de créer une accroche suffisante pour la colle.
2. Aspirer les poussières en surface.
3. Appliquer une sous-couche (type ECO PRIM T) sur l'enduit. En cas d'installation sur un vieux revêtement, cette opération ne sera pas nécessaire.
4. Après 5 heures au moins:
   - Poser le ruban caoutchouté (type MAPEBAND) le long des angles internes.
   - Etaler l'imperméabilisant (type MAPELASTIC AQUADEFENSE).
5. Après séchage, coller les plaques avec un produit conçu à cet effet (type KERALASTIC T) en utilisant la technique du double enduisage.
6. Raccorder les angles internes et les panneaux au receveur avec un joint neutre anti-moisissure (type MAPESIL LM).

1. Thoroughly clean the plaster and fill any voids. If installing over an existing covering, grind it first with special diamond disks to provide a grip for the adhesives.
2. Vacuum the surface to remove dust.
3. Apply the primer (such as ECO PRIM T) over the plaster. If installing over an existing covering, this step will be unnecessary.
4. After no less than 5 hours:
   - lay the rubber-coated tape (such as MAPEBAND) along the internal corners;
   - apply the waterproofer (such as MAPELASTIC AQUADEFENSE).
5. When dry, install the panels using the appropriate product (such as KERALASTIC T) applied with the 'double spread' technique.
6. Join the internal corners and the panels to the shower tray using anti-mould neutral sealant (such as MAPESIL LM).

CONDIZIONI GENERALI DI VENDITA
CONDITIONS GENERALES DE VENTE
SALES TERMS

1 **CONSEGNE** Si intendono sempre effettuate su base Franco Fabbrica EXW (Incoterms® 2010) presso la sede di Glass 1989 S.r.l., via Baite 12/e 31046 Oderzo, salvo diverso accordo risultante per iscritto. Non si evadono ordini di importo inferiore ai 100€, in caso di eventuali eccezioni sarà addebitata una spesa fissa di 20€ come contributo spese.

2 **SPEDIZIONI** I prodotti viaggiano a rischio e pericolo dell'acquirente, anche se spediti in porto franco. I termini di consegna indicati nelle proposte d'ordine, nelle conferme d'ordine o comunque nella corrispondenza intercorsa tra le parti si intendono in ogni caso indicativi e non vincolanti per Glass 1989 S.r.l.. In Italia è possibile richiedere un servizio di consegna rapida con addebito. Per conoscere le tariffe del servizio, contattare l'Ufficio Commerciale.

3 **ANNULLAMENTO ORDINI** L'ordine confermato e ricevuto dall'acquirente costituisce proposta ferma d'acquisto. Nessun ordine, infatti, potrà essere annullato senza l'esplicito consenso scritto di Glass 1989 S.r.l. che, in caso contrario avrà la facoltà di addebitare gli oneri inerenti.

4 **RITIRI** L'acquirente non può rifiutare di prendere in consegna i prodotti acquistati. In caso di rifiuto dei prodotti acquistati, Glass 1989 S.r.l. potrà ritenere risolto, per inadempimento dell'acquirente, il contratto, e l'acquirente sarà tenuto a corrispondere a Glass 1989 S.r.l., a titolo di penale, un importo pari al 25 % del prezzo pattuito, oltre alle spese ed agli oneri sopportati ed al risarcimento dei danni subiti.

5 **PAGAMENTI** Dovranno avvenire presso la sede di Glass 1989 S.r.l. entro i termini e le forme stabilite. Sui pagamenti in ritardo, senza pregiudizio di ogni altra azione, decorrono gli interessi di mora previsti dal D. lgs. 231/2002 fermo restando il diritto di Glass 1989 S.r.l., nel caso in cui il ritardo nel pagamento superi 15 (quindici) giorni, di dichiarare l'immediata risoluzione del contratto di compravendita per inadempimento dell'acquirente con il diritto di ottenere la restituzione dei prodotti eventualmente consegnati, a spese di quest'ultimo, e di agire per il risarcimento danno.
Il pagamento deve essere effettuato in misura integrale anche in caso di contestazione o controversia. Non è ammessa, infatti, se non con l'esplicito consenso scritto di Glass 1989 S.r.l., la compensazione con eventuali crediti vantati nei confronti di Glass 1989 S.r.l..

6 **RISERVA DI PROPRIETÀ** Tutti i prodotti rimangono di proprietà di Glass 1989 S.r.l. sino al completo pagamento di tutte le fatture e le spese accessorie ad essi relative ai sensi e per gli effetti dell'art. 1523 codice civile. L'acquirente si impegna ad attuare tutte le misure necessarie per rendere tale riserva di proprietà efficace ed opponibile nei confronti di terzi.

7 **RECLAMI** Glass 1989 S.r.l. garantisce la qualità dei prodotti e la loro conformità alle indicazioni contenute nella proposta d'ordine. I prodotti si intendono conformi quando appartengono allo stesso genere e tipo pattuito e possiedono le qualità essenziali all'uso cui sono normalmente destinati. L'acquirente è tenuto ad esaminare i prodotti contestualmente alla presa in consegna degli stessi ed a contestarne eventuali non conformità al vettore; qualora il vettore consegnasse eventuali colli che presentano danni evidenti, questi possono essere ritirati dal destinatario indicando sul DDT "salvo verifica": eventuali non conformità dovranno essere contestate entro 48h dalla consegna, pena la decadenza di ogni diritto. I resi verranno presi in consegna solo a seguito di espressa autorizzazione scritta di Glass 1989 S.r.l.. In caso di vizi tempestivamente denunciati ed accertati come effettivamente sussistenti ed imputabili a difetti di produzione, la responsabilità di Glass 1989 S.r.l. sarà limitata, a sua esclusiva discrezione, alla sostituzione del prodotto e/o componente difettoso od alla rifusione del prezzo ad esso relativo. Fermo restando quanto sopra, qualora in forza di disposizioni di legge inderogabili e/o imperative Glass 1989 S.r.l. dovesse essere tenuta a rispondere del risarcimento di costi sostenuti dal compratore conseguenti alla sostituzione dei prodotti difettosi, quali a titolo esemplificativo lavori edili, sostituzione di piastrelle od altro, detti costi non potranno essere rimborsati se non nei limiti del valore medio per tali tipi di lavori e/o forniture, restando in ogni caso escluso il risarcimento per costi sostenuti in ragione di finiture di lusso, di particolare pregio e/o comunque aventi costi superiori al costo medio delle finiture più diffuse sul mercato.

8 **VARIE** Nessun accordo orale o scritto, oltre a quelli segnati sulla copia commissione e approvati dalla Società, può impegnare una delle due parti; l'eventuale assicurazione della merce dovrà essere esplicitamente richiesta e le spese relative saranno a carico del Committente.

9 **CONTROVERSIE** In ogni caso di controversia derivante dal contratto di compravendita e/o di contestazione o mancato o ritardato pagamento, si conviene la competenza esclusiva del Foro di Treviso.

10 **LEGGE APPLICABILE** Il contratto di vendita dei prodotti è regolato dalla legge italiana.

11 **GARANZIA** La garanzia è valida in base alle norme di legge UE a partire dalla data di acquisto del primo cliente.
Non vengono coperti dalla Garanzia:
- tutte le parti soggette a usura come: guarnizioni, carrelli, filtri ecc.
- difetti estetici come graffi, abrasioni, macchie, etc. su prodotti già installati
- graffi, ammaccature, danni da cadute e simili nonché danni causati da fenomeni non dipendenti dal normale funzionamento del prodotto
- crepe, fessure, macchie, abrasioni, sporco, calcare, aloni occorsi durante l'utilizzo o dovuti a prodotti di pulizia non idonei, a scarsa manutenzione o a manutenzione effettuata non conformemente alle istruzioni fornite dal produttore
- il normale logorio, invecchiamento o usura dovuto all'uso o al non uso dell'apparecchiatura
- tutti i difetti causati da avarie occorse durante il trasporto, assemblaggio, installazione, allacciamento agli impianti o messa in funzione errati o non conformi alle istruzioni fornite dal Produttore
- i malfunzionamenti delle apparecchiature o parti di esse causate dall'utilizzo di temperature o pressioni differenti da quelle raccomandate e riportate sui documenti ufficiali rilasciati dal Produttore
- qualsiasi malfunzionamento o non conformità non attribuibili al Produttore ad esempio riparazioni o modifiche effettuate da personale non autorizzato dal Produttore, manomissioni, urti, atti di vandalismo, abusi, eventi atmosferici straordinari come la caduta di fulmini, terremoti, incendi, caratteristiche del luogo di installazione non compatibili con il prodotto acquistato etc.
- i prodotti di seconda mano e/o precedentemente esposti in showroom e/o comunque che hanno subito ogni modifica e/o estrazione dall'imballo originale del Produttore.

I termini di garanzia sono definiti esclusivamente dal Produttore, nessuno è autorizzato a modificali ne in forma scritta, ne verbale.
Il servizio di riparazione può essere rifiutato qualora il prodotto sia installato non conformemente o l'apparecchio sia stato in qualche modo modificato o trasformato da personale non autorizzato dal Produttore.
Glass 1989 non accetterà alcun addebito per costi relativi all'intervento per opere di finitura o abbellimento del luogo nel quale è avvenuta la riparazione o sostituzione del prodotto.
Per conoscere meglio i servizi e le tariffe di installazione ad opera dei Centri assistenza autorizzati si prega di contattare la sede.

1 **LIVRAISONS** Elles sont toujours effectuées Franco Usine EXW (Incoterms® 2010) au siège de Glass 1989 S.r.l., via Baite 12/e 31046 Oderzo, à moins que des accords écrits différents n'aient été pris. Les commandes avec montant inférieur à 100€ ne seront pas gérées, en cas d'exceptions nous chargerons un montant fixe de 20€ comme frais de gestion.

2 **EXPÉDITIONS** Les produits voyagent aux risques et périls de l'Acheteur, même s'ils sont expédiés en port franc. Les délais de livraison indiqués dans les propositions de commande, leurs confirmations ou quoi qu'il en soit, dans la correspondance échangée par les parties, ne sont qu'indicatifs et n'engagent en aucun cas Glass 1989 S.r.l.

3 **ANNULATION COMMANDES** La commande confirmée et reçue par l'Acheteur constitue une offre ferme d'achat. Aucune commande, en effet, ne pourra être annulée sans le consentement explicite écrit de Glass 1989 S.r.l. qui, dans le cas contraire, pourra imputer à l'Acheteur les dépenses relatives.

4 **RETRAITS** L'Acheteur ne peut pas refuser de retirer les produits achetés. En cas de refus des produits achetés, Glass 1989 S.r.l. pourra considérer le contrat passé pour inexécution de l'Acheteur et celui-ci sera tenu de verser à Glass 1989 S.r.l., à titre d'amende, un montant équivalent au 25 % du prix convenu, outre le paiement des frais et des charges supportés, ainsi que le remboursement des dommages subis.

5 **PAIEMENTS** Les paiements devront parvenir au siège de Glass 1989 S.r.l. dans les délais et selon les formes établis. Sans préjudice d'aucune autre action, les intérêts moratoires prévus par le Décret législatif 231/2002 sont dus sur les retards de paiement, étant bien entendu que Glass 1989 S.r.l. a également le droit, si le retard de paiement dépasse 15 (quinze) jours, de déclarer la dissolution immédiate du contrat d'achat et de vente pour inexécution des conditions par l'Acheteur, d'obtenir la restitution des produits éventuellement livrés, aux frais de ce dernier, et de demander des dédommagements.
Le paiement doit être effectué dans sa totalité même en cas de contestation ou de controverse. L'Acheteur ne peut pas utiliser d'éventuels crédits déclarés à son actif pour régler les sommes dues à Glass 1989 S.r.l. sans autorisation écrite explicite de ce dernier.

6 **RÉSERVE DE PROPRIÉTÉ** Tous les produits continuent à appartenir à Glass 1989 S.r.l. jusqu'au paiement total de toutes les factures et des frais accessoires qui en dérivent selon les termes et les effets de l'art. 1523 du code civil. L'Acheteur s'engage à mettre en œuvre toutes les mesures nécessaires pour que cette réserve de propriété soit efficace et puisse être opposable à tiers.

7 **RÉCLAMATIONS** La société Glass 1989 S.r.l. garantit la qualité des produits et leur conformité aux indications contenues dans la proposition de commande. Les produits sont considérés conformes lorsqu'ils appartiennent au même genre et type convenu et possèdent les qualités essentielles à l'usage auquel ils sont normalement destinés. L'Acheteur est tenu d'examiner les produits lorsque ces derniers lui sont livrés, et à contester toute non-conformité au transporteur; si ce dernier livre des colis quiprésentent des dommages évidents, ceux-ci peuvent etre retirés par le destinataire en indiquant une réserve sur le Bon de Livraison; le non-conformités doivent etre contestées entre 48 heures après la livraison, après quoi tout droit est annulé.. Les produits retournés ne seront acceptés qu'après autorisation écrite explicite de Glass 1989 S.r.l.
En cas de vice immédiatement signalé et découlant de manière certaine d'un défaut de fabrication, donc préexistant, la responsabilité de Glass 1989 S.r.l. sera limitée, à la discrétion de cette dernière, au remplacement du produit et/ou de la pièce défectueuse ou au remboursement de la somme correspondante. Ceci étant, si en raison de dispositions de loi inéluctables et/ou impératives, Glass 1989 S.r.l. devait dédommager l'acheteur de frais engagés à cause du remplacement du produit défectueux, comme par exemple des travaux de construction, le remplacement de carrelage ou toute autre exigence semblable, ces frais ne pourraient être remboursés que dans les limites du coût moyen requis pour ce type de travaux et/ou de fournitures, en excluant absolument le remboursement de frais soutenus pour des finitions luxueuses, d'une valeur particulière et/ou de toute manière ayant un coût supérieur au coût moyen habituellement pratiqué sur le marché.

8 **DIVERS** Aucun accord oral ou écrit, outre ceux indiqués sur la copie de la commande et approuvés par la Société, ne peut engager une des deux parties ; l'éventuelle assurance de la marchandise devra être spécifiquement requise et les frais en découlant seront à la charge de l'Acheteur.

9 **CONTROVERSE** Tout cas de controverse dérivant du contrat d'achat et vente et/ou de contestation, de non-paiement ou de retard de paiement, relèvera de la compétence exclusive du Tribunal de Trévise.

10 **LOI APPLICABLE** Le contrat de vente des produits est régi par la loi italienne.

11 **GARANTIE** La garantie est valable, conformément aux normes de loi UE, à partir de la date d'achat du premier client.
Ne sont pas couverts par la Garantie :
- toutes les pièces sujettes à usure comme : joints, chariots, filtres etc.
- défauts esthétiques comme les rayures, abrasions, taches, etc. sur des produits déjà installés
- rayures, bosses, dégâts dus à des chutes et semblables, ainsi que les dégâts causés par des phénomènes ne dépendant pas du fonctionnement normal du produit
- fissures, fentes, taches, abrasions, saleté, calcaire, auréoles liés à l'utilisation ou à des produits de nettoyage non adaptés, à un entretien insuffisant ou à un entretien non effectué conformément aux instructions fournies par le fabricant
- l'usure normale, le vieillissement ou l'usure liés à l'utilisation ou à la non-utilisation de l'appareil
- tous les défauts causés par des pannes liées au transport, à l'assemblage, à l'installation, au branchement aux installations ou à la mise en service erronés ou non conformes aux instructions fournies par le Fabricant
- les dysfonctionnements des appareils ou de ses pièces causés par l'utilisation de températures ou de pressions différentes de celles recommandées et reportées sur les documents officiels livrés par le Fabricant
- tout dysfonctionnement ou non-conformité non attribuables au Fabricant, par exemple des réparations ou des modifications effectuées par du personnel non autorisé par le Fabricant, des altérations, des chocs, des actes de vandalisme, des abus, des évènements atmosphériques extraordinaires comme la chute de foudre, les tremblements de terre, les incendies, les caractéristiques du lieu d'installation non compatibles avec le produit acheté etc.
- les produits d'occasion et/ou précédemment exposés en magasin et/ou, de toute façon, ayant été modifiés et/ou retirés de l'emballage d'origine du Fabricant.

Les termes de garantie sont définis exclusivement par le Fabricant, personne n'est autorisé à les modifier sous forme écrite, ni verbale.

Le service de réparation peut être refusé si le produit n'est pas conformément installé ou si l'appareil a été, de quelques façons, modifié ou transformé par du personnel non autorisé par le Fabricant
Glass 1989 n'acceptera aucun débit pour des coûts relatifs à l'intervention pour des œuvres de finition ou d'embellissement du lieu où s'est produite la réparation ou la substitution du produit.
Pour mieux connaître les services et les tarifs d'installation des Centres d'assistance autorisés, nous vous prions de contacter le siège.

1 **DELIVERY** Always considered as ex works (EXW-Incoterms® 2010) at Glass 1989 S.r.l., via Baite 12/e 31046 Oderzo, unless otherwise agreed in writing. Orders with a total amount lower than 100€ will not be fulfilled: in case of exception, an amount of 20€ will be charged.
2 **DISPATCH** The products travel at the sole buyer's risk even if delivered as 'carriage paid'. The delivery terms indicated in the order proposals, order confirmations or in any other correspondence between the parties are in any case considered as approximate and not binding for Glass 1989 S.r.l. .
3 **ORDER CANCELLATION** The confirmed order received from the buyer represents a firm purchase proposal. No order may be cancelled without the explicit written consent of Glass 1989 S.r.l., which shall be in any base entitled to charge any relative expenses.
4 **COLLECTION** The buyer may not refuse to accept the purchased products. Should the purchased products be refused, Glass 1989 S.r.l. may consider the agreement as terminated due to breach thereof by the buyer and the buyer shall be obliged to pay Glass 1989 S.r.l., by way of penalty, an amount equivalent to 25 % of the agreed price plus the expenses and charges incurred and compensation for damage.
5 **PAYMENT** Shall be made to Glass 1989 S.r.l. within the dates and with the terms that have been established. Default interest as provided for by Italian Legislative Decree 231/2002 shall commence on late payments, without prejudice to all and any other action Glass 1989 S.r.l., should the delay in payment exceed 15 (fifteen) days, has the right to declare the immediate termination of the sale agreement due to breach thereof by the buyer. In such event, Glass 1989 S.r.l. shall also be entitled to have any delivered products returned at the expense of the buyer and to take action to obtain compensation for damage. Payment shall be made in full e ven in the event of complaint or dispute. Unless otherwise agreed in writing by Glass 1989 S.r.l., under no circumstances may payment be offset against any sums owed by Glass 1989 S.r.l.
6 **RETENTION OF TITLE** All the products remain property of Glass 1989 S.r.l. until full payment of all invoices and additional expenses related to the same as per section 1523 of the Italian Civil Code. The buyer agrees to take all the necessary measures to make this retention of title effective and enforceable in respect of third parties.
7 **COMPLAINTS** Glass 1989 S.r.l. guarantees the quality of the products and their conformity with the information contained in the order proposal. The products are considered as conform when they belong to the same agreed kind and type and have the essential qualities for the use they are normally intended for. The buyer is bound to inspect the products upon receipt and to contest any non-compliance to the forwarding agent, formally; in case delivered products show damaged packaging, the buyer can accept them with reservations by indicating the reserve clause on the Bill of Delivery. Any non-compliance shall be addressed within 48 hours from the delivery, or any right will expire. Returns will only be accepted with express written authorization by Glass 1989 S.r.l. In the event of faults promptly reported and established as being actually existing and attributable to production defects, liability of Glass 1989 S.r.l. shall be limited, at its exclusive discretion, to the replacement of the product and/or defective component or to refunding the price relating thereto. Without prejudice to the above, if by virtue of binding and/or mandatory legal provisions Glass 1989 S.r.l. is held liable for the reimbursement of costs sustained by the purchaser consequent on the replacement of the defective products, such as for example building works, replacement of tiles or other items, said costs may only be reimbursed within the limits of the average value of such types of works and/or supplies, reimbursement of costs sustained by reason of luxury finishes or finishes of special value and/or in any event having costs higher than the average costs of the commonest finishes on the market being in all cases excluded.
8 **OTHER** No verbal or written agreement, other than those marked on the order and approved by the Company, may be binding on either party; any insurance of the goods shall be explicitly requested and the relative expenses will be charged to the Client.
9 **DISPUTES** For all and any dispute deriving from the sale agreement, other dispute or late or no-payment, it is agreed that the sole place of jurisdiction shall be the Law Court of Treviso.
10 **APPLICABLE LAW** The sale agreement of the products is governed by Italian law.
11 **WARRANTY** The warranty conditions are applied ONLY in the event that a non-compliance attributable to the manufacturer is found, otherwise the amount will be paid by the consumer to the service technician.
The warranty is valid according to EU law, from the date of purchase by the first customer.
The Warranty does not cover:
· parts subject to wear such as: gaskets, carriers, filters, etc.
· flaws such as scratches, abrasions, stains, etc. of products already installed
· scratches, dents and damage from falls and the like, as well as damage caused by phenomena not caused by standard product use
· cracks, splits, stains, abrasions, dirt, limescale, smears happening during or resulting from the use of unsuitable cleaning products, poor maintenance or maintenance not carried out in compliance with the manufacturer's instructions
· normal wear and tear, ageing or wear caused by use or non-use of equipment
· all defects caused by damage happening during transport, assembly, installation, connection to systems carried out incorrectly or not in compliance with the instructions provided by the Manufacturer
· malfunction of the equipment or parts of it caused by the use of temperatures or pressures other than those recommended and listed on the official documents issued by the Manufacturer
· any malfunction or non-compliance that cannot be attributed to the Manufacturer, such as repairs or alterations made by people not authorized by the Manufacturer, tampering, knocks, vandalism, abuse, extraordinary atmospheric events such as lightning, earthquake, fire, characteristics of the place of installation that are not compatible with the product purchased, etc.
· second-hand products and/or those previously exhibited in the showroom and/or that have in any case been altered and/or removed from the Manufacturer's original packaging.
The warranty terms are defined exclusively by the Manufacturer; nobody is authorized to change them in writing or verbally.
The repair service can be refused if the product has not been installed properly or if the unit has been altered or changed in some way by personnel that have not been authorized by the Manufacturer
Glass 1989 will not accept any charge for costs relating to the intervention for finishing work or decor of the place in which the product is repaired or replaced.
To find out more about the services and fees for installation carried out by authorized service centers, please contact the head office.
