HISTORIE

BOCCHI ist ein etabliertes italienisches Unternehmen, das modernes Design mit Spitzentechnologie verbindet und seinen Partnern jederzeit innovative, hochwertige Produkte und Dienstleistungen anbietet. Dabei verfolgt das Unternehmen noch heute die Vision aus den 50er Jahren, die unter ihrem Motto 'il bagno per tutti' anwenderfreundliche und lösungsorientierte Produkte für alle Zielgruppen fordert. BOCCHI ist sich seiner sozialen Verantwortung für die Gesellschaft und die Natur bewusst und hat viele Projekte initiiert und umgesetzt, die dieser Verantwortung Rechnung tragen.

HISTOIRE

BOCCHI est une entreprise italienne bien établie, qui allie un design moderne à une technologie de pointe et propose en permanence à ses partenaires des produits et des services innovants et de qualité. Ce faisant, l'entreprise poursuit encore aujourd'hui la vision des années 50 qui, sous sa devise 'il bagno per tutti', exige des produits faciles à utiliser et orientés vers des solutions pour tous les groupes cibles. BOCCHI est conscient de sa responsabilité sociale envers la société et la nature et a initié et mis en œuvre de nombreux projets qui tiennent compte de cette responsabilité.

HISTORIE

BOCCHI is een gevestigd Italiaans bedrijf dat modern design combineert met geavanceerde technologie en biedt haar partners steeds innovatieve producten en diensten van hoge kwaliteit. Daarbij streeft het bedrijf nog steeds de visie uit de jaren 50 na, die onder het motto 'il bagno per tutti' oproept tot gebruiksvriendelijke en oplossingsgerichte producten voor alle doelgroepen. BOCCHI is zich bewust van haar maatschappelijke verantwoordelijkheid voor maatschappij en natuur en heeft vele projecten geïnitieerd en uitgevoerd die met deze verantwoordelijkheid rekening houden.

DESIGN

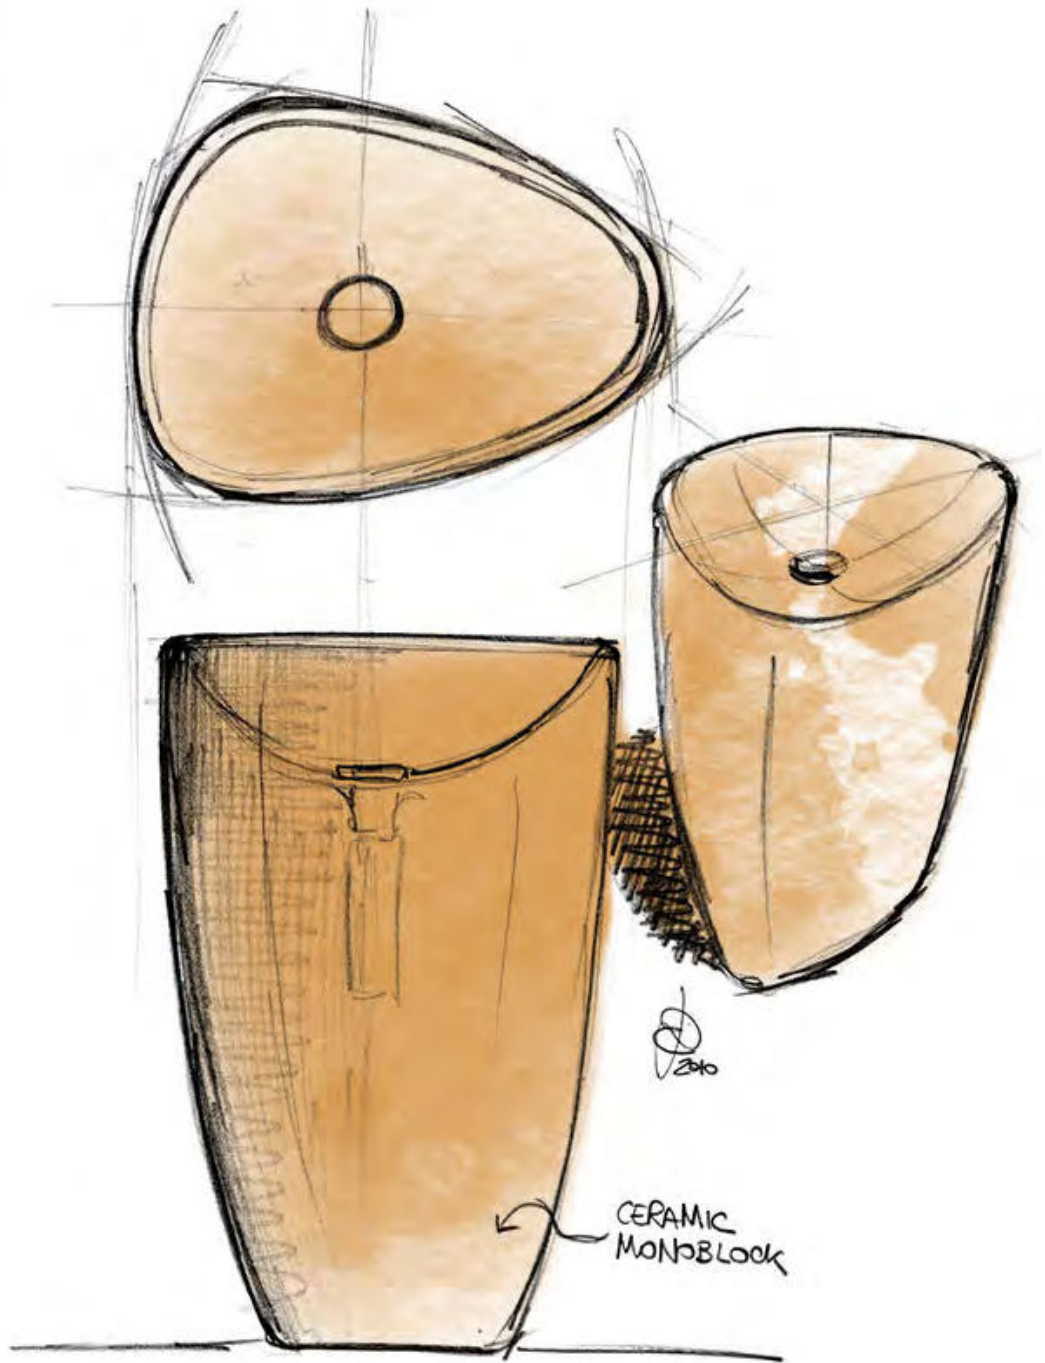

Die Idee des Designs geht bei BOCCHI heute über bloße Objekte bzw. Produktgestaltung hinaus und stellt ein ganzheitliches Konzept für das Badezimmer dar. Die Priorität von BOCCHI ist es, Produkte umzusetzen, die sich nicht an der bestehenden Produktionstechnologie orientieren, sondern von der Designidee angetrieben werden. Durch die hohe Kompetenz in der Keramikherstellung setzt BOCCHI immer wieder neue Designstandards auf höchstem Niveau.

DESIGN

Chez BOCCHI, l'idée du design va aujourd'hui au-delà de simples objets ou de la conception de produits et représente un concept global pour la salle de bains. La priorité de BOCCHI est de mettre en œuvre des produits qui ne s'orientent pas vers la technologie de production existante, mais qui sont mus par l'idée de design. Grâce à sa grande compétence dans la fabrication de la céramique, BOCCHI établit sans cesse de nouveaux standards de design au plus haut niveau.

DESIGN

Bij BOCCHI gaat het idee van design tegenwoordig verder dan alleen objecten of productontwerpen vertegenwoordigt het een holistisch concept voor de badkamer. De prioriteit van BOCCHI is het implementeren van producten die niet gericht zijn op de bestaande productietechnologie, maar gedreven worden door het idee van design. Dankzij het hoge niveau van expertise in keramische productie zet BOCCHI voortdurend nieuwe designstandaarden op het hoogste niveau.

BOCCHI HAT DIE FARBE IHRER TRÄUME

Wenn Sie ein Bad haben möchten, das Ihren individuellen Geschmack widerspiegelt, haben Sie mit BOCCHI die richtige Wahl getroffen. Wählen Sie zwischen 24 Farboptionen und einer Vielzahl von unterschiedlichen Produktvarianten.

BOCCHI A LA COULEUR DE VOS RÊVES

Si vous souhaitez une salle de bains qui reflète vos goûts personnels, vous avez fait le bon choix avec BOCCHI. Choisissez parmi 24 options de couleurs et une multitude de variantes de produits différents.

BOCCHI HEEFT DE KLEUR VAN UW DROMEN

Wie een badkamer wil die zijn individuele smaak weerspiegelt, heeft met BOCCHI de juiste keuze gemaakt. Kies uit 24 kleurmogelijkheden en verschillende productvarianten.

SUPERGLATTE OBERFLÄCHE

Entstanden durch jahrelange Forschungs- und Entwicklungsarbeit wurde die "Super Smooth Surface" oder auch "Superglatte Oberfläche" von BOCCHI entwickelt, um unerwünschte Flecken und Kalkbildung, die mit Schmutz in Berührung kommen, zu minimieren. Testergebnisse zeigen, dass diese Oberfläche 19x glatter als eine herkömmlich glasierte Porzellanoberfläche ist und dieser in Bezug auf Hygiene und Schmutzbildung absolut überlegen ist.

SURFACE TRÈS LISSE

Fruit de plusieurs années de recherche et de développement, la "Super Smooth Surface" ou "surface super lisse" de BOCCHI a été conçue pour minimiser les taches indésirables et la formation de calcaire qui entrent en contact avec la saleté. Les résultats des tests montrent que cette surface est 19 fois plus lisse qu'une surface en porcelaine émaillée traditionnelle et qu'elle est absolument supérieure à cette dernière en termes d'hygiène et de formation de salissures.

SUPER GLAD OPPERVLAKE

Geboren uit jaren van onderzoek en ontwikkeling, is BOCCHI's "Super Smooth Surface" ontwikkeld om ongewenste vlekken en kalkaanslag die in contact komen met vuil te minimaliseren. Testresultaten tonen aan dat dit oppervlak 19x gladder is dan een conventioneel geglazuurd porseleinen oppervlak en er absoluut superieur aan is op het gebied van hygiëne en vuilvorming.

TESTERGEBNISSE
RÉSULTATS DES TESTS - TESTRESULTATEN

	Superglatte Oberfläche Surface très lisse Super glad oppervlak	Standardkeramik Céramique standard Standaard keramiek
Rauigkeit	Rt. 1.300	Rt. 24.275
Rugosité	Rmax. 1.243	Rmax. 23.507
Ruwheid	Rz - D. = 0.953	Rz D = 18.153
	Ra = 0.192	Ra = 2.890

Rt.: Profilhöhe | Hauteur du profil | Profielhoogte

Rmax: Maximale Porositätstiefe | Profondeur maximale de la porosité | Maximale poreusheidsdiepte

Rz - D: Profilhöhe maximaler Porosität | Hauteur du profil de la porosité maximale | Maximale poreusheid

Ra: Durchschnittswert der arithmetischen Porosität | Valeur moyenne de la porosité arithmétique | Gemiddelde waarde van de rekenkundige poreusheid

CLEAN PLUS+

“STRAHLEND WIE AM ERSTEN TAG”

Dank der Clean Plus Technologie, der Innovation der BOCCHI R&D Family, behalten Waschtische und Toiletten länger ihren strahlenden Zustand. Die Clean Plus+ - Oberflächenbeschichtungstechnologie macht Keramikoberflächen doppelt so glatt und erhöht gleichzeitig die Oberflächenspannung von Flüssigkeiten.

Auf diese Weise werden hydrophobe Oberflächenverschmutzungen, das Anhaften von Schmutz und Kalkablagerungen verhindert. Ihre Badezimmerprodukte werden weniger verschmutzt und lassen sich ohne starke Reinigungsmittel sehr leicht reinigen. Das Abreiben mit einem weichen Tuch reicht aus, um den Glanz des ersten Tages zu erhalten.

CLEAN PLUS+

“RAYONNANTE COMME AU PREMIER JOUR”

Grâce à la technologie Clean Plus, l'innovation de la BOCCHI R&D Family, les lavabos et les toilettes conservent plus longtemps leur état éblouissant. La technologie de revêtement de surface Clean Plus + rend les surfaces en céramique deux fois plus lisses et augmente en même temps la tension superficielle des liquides.

Cela permet d'éviter les salissures hydrophobes en surface, l'adhérence de la saleté et les dépôts de calcaire. Vos produits de salle de bains se salissent moins et se nettoient très facilement sans produits de nettoyage puissants. Il suffit de les frotter avec un chiffon doux pour qu'ils retrouvent leur éclat du premier jour.

CLEAN PLUS+

“STRALEND ALS OP DE EERSTE DAG”

Dankzij de Clean Plus technologie, de innovatie van de BOCCHI R&D Family, behouden wastafels en toiletten langer hun stralende staat. De Clean Plus + oppervlaktecoatingstechnologie maakt keramische oppervlakken twee keer zo glad en verhoogt tegelijkertijd de oppervlaktenspanning van vloeistoffen.

Dit voorkomt hydrofobe oppervlaktevervuiling, vuilaanhechting en kalkaanslag. Uw badkamerproducten worden minder vuil en zijn zeer eenvoudig te reinigen zonder sterke schoonmaakmiddelen. Afnemen met een zachte doek is voldoende om de glans van de eerste dag te behouden.

UMWELTFREUNDLICHE WCS

Um einen Beitrag zum Kampf gegen die Verknappung der Wasserressourcen zu leisten, hat BOCCHI die umweltfreundlichen Toiletten entwickelt. Durch diese Technologie kann eine 4-köpfige Familie über 30.000 Liter Wasser pro Jahr einsparen. Ebenfalls bieten die Armaturen von BOCCHI eine Wassereinsparung von bis zu 50% im Vergleich zu herkömmlichen Armaturen.

DES TOILETTES ÉCOLOGIQUES

Pour contribuer à la lutte contre la raréfaction des ressources en eau, BOCCHI a développé les toilettes écologiques. Grâce à cette technologie, une famille de 4 personnes peut économiser plus de 30.000 litres d'eau par an. De même, les robinets de BOCCHI permettent d'économiser jusqu'à 50% d'eau par rapport aux robinets traditionnels.

MILLIEUVRIENDELIJKE CLOSET

Om bij te dragen aan de strijd tegen de waterschaarste heeft BOCCHI het milieuvriendelijk wandcloset ontwikkeld. Deze technologie kan een gezin van 4 meer dan 30.000 liter water per jaar besparen. Ook de kranen van BOCCHI bieden een waterbesparing tot 50% in vergelijking met conventionele kranen.

BOCCHI
E C O

XL-WC

BOCCHI erhöht den Komfort im Bad. Das BOCCHI XL-WC bietet im Vergleich Standard-WCs mit einer Breite von 42cm und einer Länge von 60cm eine 30 % größere Sitzfläche. Das neue Design macht den Aufenthalt im Bad komfortabler und bequemer für Benutzer, die über die normale Körpergröße hinausgehen.

WC XL

BOCCHI augmente le confort dans la salle de bains. Le WC XL de BOCCHI offre une surface d'assise 30 % plus grande par rapport aux WC standard, avec une largeur de 42 cm et une longueur de 60 cm. Ce nouveau design rend le séjour dans la salle de bains plus confortable et plus commode pour les utilisateurs dont la taille est supérieure à la normale.

XL WANDCLOSET

BOCCHI verhoogt het comfort in de badkamer. In vergelijking met standaard toiletten biedt het BOCCHI XL toilet een 30% grotere zitruimte met een breedte van 42 cm en een lengte van 60 cm. Het nieuwe ontwerp maakt het verblijf in de badkamer comfortabeler en handiger voor gebruikers die groter zijn dan normaal.

XL TOILET
42 cm

STANDARD TOILET
35 cm

RIMLESS WCs

Ermöglichen die Reinigung von allen Bereichen der Toilette. Während herkömmliche WCs mit Spülrand in einigen Bereichen schwierig zu reinigen sind, haben Keime bei den spülrandlosen WCs keine Chance mehr. Neben der Keimbildung verhindern die randlosen WCs, dass sich eine Kalkschicht im Inneren des WC-Randes bildet. Die Reinigung kann leichter und mit weniger Reinigungsmittel erfolgen.

WC RIMLESS SANS BRIDE

Permettent de nettoyer toutes les zones des toilettes. Alors que les WC traditionnels avec rebord de chasse sont difficiles à nettoyer dans certaines zones, les germes n'ont plus aucune chance avec les WC sans rebord. Outre la formation de germes, les WC sans rebord empêchent la formation d'une couche de calcaire à l'intérieur du rebord du WC. Le nettoyage peut se faire plus facilement et avec moins de produits de nettoyage.

RANDLOZE WC 's

Maken reiniging van alle delen van het toilet mogelijk. Terwijl conventionele wc's met spoelrand op sommige plaatsen moeilijk te reinigen zijn, krijgen ziektekiemen geen kans meer met randloze wc's. Naast de kiemvorming voorkomen randloos wc's dat zich een kalklaag in de wc-rand vormt. De reiniging is eenvoudiger en er is minder reinigingsmiddel nodig.
